**:: Christiane Hoffman, founder of Lilith Project, accepted into Q-Pool100**

Recently, Christiane Hoffman, founder of Lilith Project, was accepted into Q-Pool100 and is currently the only person working in Human Resources and Recruitment in Luxembourg upon whom this honour has been bestowed.

Q-Pool 100 is an international network of HR professionals who are accepted on the criteria of academic background, business success and proven professional standards. The result is a high standard "Quality Pool" of HR professionals who can share knowledge, experience and references amongst the other members of a network whom they know they can trust.

Christiane's entry into Q-Pool 100 is more than just an indication of Lilith Project's continuing dedication towards maintaining high standards and remaining up-to-date as to new trends and challenges. Access to Q-Pool 100 means that Lilith Project can recommend and arrange contact and/or collaboration with suitable professionals in highly specialised HR areas with skills which cannot be found locally.
